SUMMARY

A passionate student enrolled in Computer Programming and Analysis at Fanshawe College seeking Co-op in a professional environment.

Supportive member with considerable technical skills in programming and problem-solving.

SKILLS

- **Multilingual:** Bilingual in English and Vietnamese, with a growing proficiency in French
- **Communication:** Strong teamwork skills with an ability to explain technical jargon in easy-to-understand terms
- **Adaptability:** Perform well under pressure and in dynamic environments
- **Lifelong Learner:** Positive attitude with a proven ability to quickly acquire new technologies
- **IT Infrastructure:** Solid understanding of hardware, networking (OSI model), and virtualization platforms (Microsoft Hyper-V, VMware vSphere)
- **DevOps & Infrastructure:** Experienced with Infrastructure as Code (IaC) tools (Ansible, Terraform), Agile methodologies, and CI/CD workflows using Azure DevOps.
- **Software Development:** Competent in writing clean, maintainable code and developing APIs using C#/.NET, C++, Java, Python, SQL, with experience in frontend frameworks (React, Vue.js, jQuery), web technologies (HTML, CSS, JavaScript), and version control (Git)
- **Enterprise Management:** Proficient in Microsoft enterprise management tools: Intune, Entra ID, Exchange, and Active Directory Users and Computers (ADUC)
- **Analytical Skills:** Knowledgeable in advanced math, including Algebra and Calculus

EXPERIENCE

NSC Support Analyst - Tier 1

August 2025 – December 2025

Emco Corporation, London, ON

- Managed enterprise-level devices and user accounts using Azure Active Directory (now Microsoft Entra ID), Intune, Exchange, and Active Directory Users and Computers (ADUC)
- Streamlined deployment efficiency by automating Windows installations using answer (unattended) files, PowerShell scripting, and Windows Autopilot
- Provided comprehensive Tier 1 IT support, both on-site and remotely, to company personnel, effectively addressing hardware, software, and configuration-related issues
- Responded proactively to a multitude of individual tickets, delivering end-user assistance for Windows and applications like Microsoft Office, Adobe, AutoCAD, and FortiClient VPN
- Ensured comprehensive documentation of network and system setup, as well as repair procedures, contributing to the optimization of future technical support processes
- Collaborated with vendors to procure replacement hardware or software and escalated complex issues when necessary

Information Systems IoT

January 2025 – April 2025

Eramosa - A CIMA+ Company, Guelph, ON

- Applied networking knowledge based on the OSI model to interconnect applications hosted on virtualization platforms such as Microsoft Hyper-V and VMware vSphere
- Developed standardized Windows Subsystem for Linux environments with integrated endpoint security management solutions
- Worked well with various operating systems, including Windows, Linux, and VMware
- Installed, configured, and maintained network equipment, such as servers, switches, and workstations, to fulfill client infrastructure requirements
- Ensured comprehensive documentation of network and system setup, as well as Infrastructure as Code deployment utilizing Ansible and Terraform
- Automated the Windows installation process using answer (unattended) files

EDUCATION

Computer Programming and Analysis (Co-op)

September 2023 – Present

Advanced Diploma, Fanshawe College, London, ON

- Maintained a GPA of 4.2/4.2
- Received Dean's Honour Roll every semester (F2023, W2024, F2024, S2025)
- Awarded the International Vietnam Language Excellence Entrance Award (CA\$2000) and the Karen L. Monahan International Award (CA\$750)
- Strong foundation in mathematics, focusing on Algebra and Calculus
- Competent in writing clean, maintainable code and developing APIs using C#/.NET, C++, Java, Python, SQL, with experience in frontend frameworks (React, Vue.js, jQuery)

VOLUNTEER

Peer Mentor

January 2024 – Present

School of Information Technology, Fanshawe College, London, ON

- Explained complex technical concepts in simple language for non-technical stakeholders
- Adapted tutoring strategies to the learning styles of students with different levels
- Applied critical thinking to identify and resolve students' problems
- Led cross-functional teams in discussions to develop solutions and improve processes

Language Instructor

September 2023 – December 2024

London District Catholic School Board, London, ON

- Addressed cross-cultural differences decisively and gained knowledge of Canadian culture
- Used strong interpersonal skills to build relationships with colleagues, students, and parents
- Resolved parental issues with their children in a professional manner
- Organized schedules and resources, improving workflow and productivity
